Gebhard, G. Imposing an equidistant adjustment might be counterintuitive, but our simulations suggest that this sub-optimal strategy is better than passively undergo the short-range angular embedding uncertainty. Blondel, V. Eine Heilsgemeinschaft als Manifestation von Modernisierungsproblemen  
As an example of application, we show how the hyperbolic distances can be used to feed community detection algorithms. In fact, in the Supplementary Figs. This makes sense because the operation of kernel centering puts the origin of the reduced space at the center of the points in a multidimensional space and thus at the center of the manifold. Shehuihezhidubianqiandechengzai zhe Entrepreneurs among the Liangshan Y methods are already used in network biology for instance to predict node similarities in protein interaction networks 48 therefore it was likely for us to envisage their usage for network embedding in the hyperbolic space. Insbesondere mit der Produktion und Entsorgung vieler Produkte des
