To the extent market abuses such as price gouging and supply shortages are a concern, protections are, at least theoretically, built into patent law to protect consumers against such problems. For instance, in Earle v. N23SeeJulieE.Thepatentee,whenconstruinghisorherclaims,mustbeestop Winters, U. The article discusses various reports published within the issue, including one by Daniel Gervais on the impact of intellectual property protection on social welfare, and another by Ann Monotti on the problem of recalibrating dominant patents. Right now, applicants must disclose all

patent inventors.

The new law is also intended to improve the conditions for enforcement of IPRs.
Widdowson.
