The author's unique access to "the father" of Iran's nuclear programme, as well as to key scientific personnel under the early Islamic Republic and to senior Iranian and Western negotiators, sheds new light on the uranium enrichment efforts that lie at the heart of global concerns. Unfortunately, Patrikarakos barely scratches the surface of these sources, above all the Rowhani which is a veritable treasure trove as regards his tenure as head of the SNSC, and really should have made a great deal more use of it. The Eisenhower administration initiated this effort in as part of the Atoms for Peace program.

LibDems. Although Patrikarakos shows familiarity with primary media sources. Try Independent Minds free for 1 month to access this feature. It is however a very readable work on perhaps the burning foreign policy issue of the day. Subscribe to Independent
