Developmental Dysplasia and Dislocation of the Hip in Adults. However, considering the processes are confidential, the Editorial Office can rarely provide more details than those available in the author account; queries not from the author will not be answered.

In choosing the authors I have emphasized expertise I hope that readers of Annals We kept in mind the educational clear that a wide range of cancer medicine has been needs of doctors in training, and of other health care covered to a very high standard. However, characterisation of cancer is challenged by constitutive and evolving intra-tumour and inter-lesion heterogeneity, which requires thorough and continuous analysis of genomic complexity over time.
